#### DOMINION WATER & SANITATION DISTRICT 2022 BUDGET SUMMARY OF SIGNIFICANT ASSUMPTIONS

#### **Services Provided**

The District, a quasi-municipal corporation and a political subdivision of the State of Colorado, was organized to provide financing for the construction, installation, operation and maintenance of water and wastewater facilities for users within the District's service area which is located entirely within Douglas County, Colorado.

The District held its formation election on November 2, 2004, and was organized by the recording of an Order and Decree Organizing District in Douglas County on December 30, 2004.

The District prepares its budget on the modified accrual basis of accounting in accordance with the requirements of C.R.S. 29-1-105 using its best estimates as of the date of the budget hearing. These estimates are based on expected conditions and its expected course of actions. The assumptions disclosed herein are those that the District believes are significant to the budget. There will usually be differences between the budget and actual results because events and circumstances frequently do not occur as expected, and those differences may be material.

For financial statement reporting under generally accepted accounting principles (GAAP), the Enterprise Fund uses the full accrual basis of accounting. Consequently, the terminology 'Funds Available' is used in the budget to distinguish the difference from GAAP accounting for Fund Balance. Funds Available represents the Enterprise Fund's current assets less its current liabilities except for the current portion of long-term debt.

#### **Primary Revenues**

#### **Water and Sewer Tap Fees**

The District's budget includes water and sewer tap fees anticipated to be collected from dwelling units, pursuant to a fee resolution adopted by the District's Board of Directors.

#### **Water and Sewer Service Fees**

The District's budget includes estimated water and sewer service fees to be charged to its wholesale customers, based on a rate schedule established pursuant to the District's rules and regulations.

#### **Net Investment Income**

Interest earned on the District's available funds has been estimated based on an average interest rate of approximately 1.25%.
