Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of Crystal Valley Metropolitan District No. 2, Douglas County, Colorado, as of December 31, 2019, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in conformity with U.S. GAAP.

Our opinion on the basic financial statements is not affected by the missing information.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – Debt Service Fund and Summary of Assessed Valuation, Mill Levy, and Property Taxes Collected were presented for the purpose of additional analysis and were not a required part of the financial statements.

The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – Debt Service Fund and Summary of Assessed Valuation, Mill Levy, and Property Taxes Collected are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. CRYSTAL VALLEY METROPOLITAN DISTRICT NO. 2

Notes to Financial Statements December 31, 2019

Note 1: Summary of Significant Accounting Policies

The accounting policies of the Crystal Valley Metropolitan District No. 2, (the “District”), located in Douglas County, Colorado, conform to the accounting principles generally accepted in the United States of America (“GAAP”) as applicable to governmental units. The Governmental Accounting Standards Board (“GASB”) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies consistently applied in the preparation of financial statements.

Definition of Reporting Entity

The District was organized in 1986 concurrently with Crystal Valley Metropolitan District No. 1 (“District No. 1”), as a quasi-municipal organization established under the State of Colorado Special District Act. District No. 1 has the power to provide water, streets, traffic and safety controls, television relay and translator, transportation, park and recreation, mosquito and pest control, fire protection and emergency medical services, sanitation facilities and other related improvements for the benefit of the taxpayers and service users within both District No. 1 and No. 2 boundaries. The Service Plan anticipates that the District No. 1 will convey water, sanitation facilities, streets and other facilities to the Town of Castle Rock, Colorado (“the Town”) or Douglas County (“the County”) for operation and maintenance purposes. District No. 1 may however, upon mutual agreement with the Town, retain ownership in the facilities and/or retain responsibility for operations and maintenance.

The District is intended to serve as the “Taxing District” while District No. 1 is intended to serve as the “Operating District”. The District collects property and specific ownership taxes, and on a yearly basis remits payments to District No. 1 for the purpose of funding operational expenses and funding capital projects.

The Operating District is responsible for providing the day-to-day operations and administrative management for both Districts.

As required by GAAP, these financial statements present the activities of the District, which is legally separate and financially independent of other state and local governments. The District follows the GASB, Statement No. 61, *The Financial Reporting Entity: Omnibus, which amended* GASB Statement No. 14, *The Financial Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, which provides guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB sets forth the financial accountability of a governmental organization’s elected governing body as the basic criterion for including a possible component governmental organization in a primary government’s legal entity.

CRYSTAL VALLEY METROPOLITAN DISTRICT NO. 2

Notes to Financial Statements December 31, 2019

Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency. The pronouncements also require including a possible component unit if it would be misleading to exclude it.

The District is not financially accountable for any other organization. The District has no component units as defined by the GASB.

The District has no employees and all operations and administrative functions are contracted.

Basis of Presentation

The accompanying financial statements are presented per GASB Statement No. 34 - Special Purpose Governments.

The government-wide financial statements (i.e. the governmental funds balance sheet/statement of net position and the governmental funds statement of revenues, expenditures, and changes in fund balances/statement of activities) report information on all of the governmental activities of the District. The statement of net position reports all financial and capital resources of the District. The difference between the (a) assets and deferred outflows of resources and the (b) liabilities and deferred inflows of resources of the District is reported as net position. The statement of activities demonstrates the degree to which expenditures/expenses of the governmental funds are supported by general revenues. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are collected.

CRYSTAL VALLEY METROPOLITAN DISTRICT NO. 2

Notes to Financial Statements December 31, 2019

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The material sources of revenue subject to accrual are property taxes and interest. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation is paid.

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources not accounted for and reported in another fund.

Debt Service Fund – The Debt Service Fund is used to account for all financial resources that are restricted, committed or assigned to expenditures for principal, interest and other debt related costs.

Budgetary Accounting

Budgets are adopted on a non-GAAP basis for the governmental funds. In accordance with the State Budget Law of Colorado, the District's Board of Directors holds public hearings in the fall of each year to approve the budget and appropriate the funds for the ensuing year. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated. The appropriation is at the total fund expenditures level and lapses at year end.

Assets, Liabilities, Deferred Inflows/Inflows of Resources and Net Position

Fair Value of Financial Instruments

The District's financial instruments include cash and cash equivalents, accounts receivable and accounts payable. The District estimates that the fair value of all financial instruments at December 31, 2019, does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheet. The carrying amount of these financial instruments approximates fair value because of the short maturity of these instruments.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand and short-term investments with maturities of three months or less from the date of acquisition. Investments for the government are reported at fair value.

CRYSTAL VALLEY METROPOLITAN DISTRICT NO. 2

Notes to Financial Statements December 31, 2019

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a minimum number of bank accounts. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Estimates

The preparation of these financial statements in conformity with GAAP requires the District management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has no items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one type of items that qualify for reporting in this category. Deferred property taxes are deferred and recognized as an inflow of resources in the period that the amounts become available.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayers' election, in February and June. Delinquent taxpayers are notified in July or August and the sales of the resultant tax liens on delinquent properties are generally held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows in the year they are levied and measurable since they are not normally available nor are they budgeted as a resource until the subsequent year. The deferred property taxes are recorded as revenue in the subsequent year when they are available or collected.

CRYSTAL VALLEY METROPOLITAN DISTRICT NO. 2

Notes to Financial Statements December 31, 2019

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

Fund Equity

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications make the nature and extent of the constraints placed on a government's fund balance more transparent:

Nonspendable Fund Balance

Nonspendable fund balance includes amounts that cannot be spent because they are either not spendable in form (such as inventory or prepaids) or are legally or contractually required to be maintained intact.

Restricted Fund Balance

The restricted fund balance includes amounts restricted for a specific purpose by external parties such as grantors, bondholders, constitutional provisions or enabling legislation.

The restricted fund balance in the General Fund represents Emergency Reserves that have been provided as required by Article X, Section 20 of the Constitution of the State of Colorado. A total of \$540 of the General Fund balance has been restricted in compliance with this requirement.

The restricted fund balance in the Debt Service Fund in the amount of \$2,814,990 is restricted for the payment of the debt service costs associated with the General Obligation Refunding Loans Series 2015 and Series 2017 (see Note 3).

Committed Fund Balance

The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by a formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

Assigned Fund Balance

Assigned fund balance includes amounts the District intends to use for a specific purpose. Intent can be expressed by the District's Board of Directors or by an official or body to which the Board of Directors delegates the authority.

CRYSTAL VALLEY METROPOLITAN DISTRICT NO. 2

Notes to Financial Statements
December 31, 2019

Unassigned Fund Balance

Unassigned fund balance includes amounts that are available for any purpose. Positive amounts are reported only in the General Fund, all other funds can report negative amounts. For the classification of Governmental Fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classification is available.

Net Position

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The District reports three categories of net position, as follows:

Net investment in capital assets – consists of net capital assets, reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows or resources related to those assets. At December 31, 2019, the District did not have any amounts to report in this category.

Restricted net position – net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted net position – consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District will use the most restrictive net position first.

Deposits

Custodial Credit Risk

The Colorado Public Deposit Protection Act, (“PDPA”) requires that all units of local government deposit cash in eligible public depositories. State regulators determine eligibility. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits. The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

The District does not have a formal policy for deposits, however, none of the District’s deposits were exposed to custodial credit risk.

Investments

Credit Risk

The District has not adopted a formal investment policy; however the District follows state statutes regarding investments. Colorado statutes specify the types of investments meeting defined rating and risk criteria in which local governments may invest. These investments include obligations of the United States and certain U.S. Government agency entities, certain money market funds, guaranteed investment contracts, and local government investment pools.

Custodial and Concentration of Credit Risk

None of the District’s investments are subject to custodial or concentration of credit risk.

Interest Rate Risk

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors.

Investment Valuation

Investment Valuation

Certain investments are measured at fair value within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's investment is not required to be categorized within the fair value hierarchy. This investment's value is calculated using the net asset value method (NAV) per share.

The District has the following investments as of December 31, 2019:

COLOTRUST

The local government investment pool, Colorado Local Government Liquid Asset Trust ("COLOTRUST") is rated AAAM by Standard & Poor's with a weighted average maturity of under 60 days. COLOTRUST is an investment trust/joint ventures established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST using the net asset value method. The trusts operate similarly to a money market fund with each share maintaining a value of \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both investments consist of U.S. Treasury bills and notes and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. Designated custodian banks provide safekeeping and depository services to the trusts. Substantially all securities owned by the trusts are held by the Federal Reserve Bank in the accounts maintained for the custodian banks. The custodians' internal records identify the investments owned by COLOTRUST. At December 31, 2019, the District had \$2,525,557 invested in COLOTRUST.

Note 4: Related Party

One member of the Board of Directors is an employee of RainTree Investment Corporation (“RainTree”), which has significant ownership and/or investment interests in the property within the Districts. One other director is consultant, directly or indirectly, to Raintree. Management believes that all potential conflicts, if any, have been disclosed to the Secretary of State and the Board of Directors.

Note 5: Agreements

District Facilities Construction and Service Agreement

On June 4, 2001, and as amended on February 24, 2012, the District entered into a District Facilities Construction and Service Agreement with District No. 1 under which District No. 1 coordinates the financing, acquisition, construction, installation, completion, operation, maintenance and repair of public improvements and the management, administration and provision of services benefitting both Districts. The District will financially support the repayment of bonds and other obligations incurred in connection with the completion, operation, maintenance and repair of public improvements and the management, administration and provision of services by District No. 1.

Note 6: Tax, Spending and Debt Limitations

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer Bill of Rights (“TABOR”), contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year’s Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District’s management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.

CRYSTAL VALLEY METROPOLITAN DISTRICT NO. 2

Notes to Financial Statements December 31, 2019

On November 6, 2001, a majority of the District's electors authorized the District to collect and spend or retain in a reserve all currently levied taxes and fees of the District without regard to any limitations under Article X, Section 20 of the Colorado Constitution

Note 7: Risk Management

Except as provided in the Colorado Governmental Immunity Act, 24-10-101, et seq., CRS, the District may be exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets; errors or omissions; injuries to agents; and natural disasters. The District has elected to participate in the Colorado Special Districts Property and Liability Pool ("Pool") which is an organization created by intergovernmental agreement to provide common liability and casualty insurance coverage to its members at a cost that is considered economically appropriate. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for auto, public officials' liability, and property and general liability coverage. In the event aggregated losses incurred by the Pool exceed its amounts recoverable from reinsurance contracts and its accumulated reserves, the District may be called upon to make additional contributions to the Pool on the basis proportionate to other members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

Note 8: Reconciliation of Government-Wide Financial Statements and Fund Financial Statements

The Governmental Funds Balance Sheet/Statement of Net Position includes an adjustments column. The adjustments may have the following elements:

- 1) long-term liabilities such as bonds payable and accrued bond interest payable are not due and payable in the current period and, therefore, are not in the funds.

The Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances/Statement of Activities includes an adjustments column. The adjustments may have the following elements:

- 1) governmental funds report interest expense on the modified accrual basis; however, interest expense is reported on the full accrual method on the Statement of Activities;
- 2) governmental funds report developer advances and/or bond proceeds as revenue; and,
- 3) governmental funds report long-term debt payments as expenditures, however, in the statement of activities, the payment of long-term debt is recorded as a decrease of long-term liabilities.

Current Fee Resolution

**SECOND AMENDED AND RESTATED
JOINT RESOLUTION CONCERNING IMPOSITION OF DISTRICT
DEVELOPMENT FEE**

WHEREAS, pursuant to an order of District Court of Douglas County, Colorado, Crystal Valley Metropolitan District Nos. 1 and 2 (collectively, the "Districts") have been duly and validly created as metropolitan districts in accordance with all applicable law; and

WHEREAS, the Districts are authorized pursuant to C.R.S. Section 32-1-1001(1)(j) to fix fees, rates, tolls, charges and penalties for services or facilities provided by the Districts which, until paid, shall constitute a perpetual lien on and against the property served; and

WHEREAS, the Districts' Consolidated Service Plan ("Service Plan") similarly empowers the imposition of such fees and rates for services and facilities provided by the Districts; and

WHEREAS, on June 4, 2001, the Districts adopted and approved the Joint Resolution Concerning Imposition of District Development Fee (the "Resolution") which imposed certain development fees and charges against property within the boundaries of the Districts (the "Development Fees"), as recorded in the Douglas County Clerk and Recorders records at reception number 2003027696, which was amended and restated on or about December 2, 2009; and

WHEREAS, the Districts are parties to a District Facilities Construction and Services Agreement, dated as of June 4, 2001, as amended (the "Master IGA"), which Master IGA provides that District No. 1 shall own, operate, maintain, construct all public facilities benefitting the Districts and that District No. 2 will fund all such activities from the proceeds of bonds or property taxes; and

WHEREAS, pursuant to the Master IGA, all fees and charges are imposed by District No. 1 for services and facilities provided to or for the benefit of District No. 2; and

WHEREAS, the Board of Directors of District No. 1 desires to restate the provisions of the Resolution to provide for differential rates for single and multi-family products and further clarify the circumstances under which the Development Fee may be increased or decreased.

NOW, THEREFORE, be it resolved by the Board of Directors of the District No. 1 as follows:

COVENANTS AND AGREEMENTS

1. Amendment and Restatement of Fee Resolution. The Fee Resolution is hereby amended and restated in its entirety with this Resolution.

2. Imposition of Fees. As of the effective date hereto, District No. 1 authorizes imposition of all fees and charges established hereunder against all property as is now and in the future within the boundaries of District No. 1 and District No. 2, as such boundaries may be adjusted in the future (“Legal Boundaries”).

-
- a. Residential Property. A one-time “Development Fee” is hereby established for all residential dwelling units within the Legal Boundaries of the Districts.
 - i. Residential Detached Dwelling Units. The Development Fee for all residential detached dwelling units shall be set hereunder at the rate of \$2,100.
 - ii. Multi-family Attached Dwelling Units. The Development Fee for all multi-family attached dwelling units shall be set hereunder at the rate of \$1,260.
 - b. Commercial Property. A one-time “Development Fee” is hereby established for all property within the Legal Boundaries developed for commercial uses at an SFE rate of \$2,100 and shall be applied to all such commercial property on the basis of 4 SFEs per each acre of commercial property or \$8,400 per acre of zoned commercial property.
 - c. The Development Fees established hereunder shall be subject to increase at the discretion of the Board of Directors of District No. 1 on an annual basis as part of the next succeeding year’s budget. Any such increases shall be limited to five percent (5%) rounded to the nearest twenty-five dollars (\$25.00) on January 1 of each year commencing January 1, 2012 until no further single or multi-family dwelling units or commercial property remain to be constructed within the Districts.

3. Due at Building Permit. All Development Fees shall be due not later than the date a building permit is obtained by the owner of any portion of the property within the Districts upon which a dwelling unit or commercial property may be constructed. The amount of each Development Fee due hereunder shall be at the rate in effect at the time of that the building permit is obtained.

4. Penalties for Late Payment. Any Fee that is not paid in full within ten (10) days after the scheduled due date may be assessed a late fee of \$25 per month, not to exceed twenty-five percent (25%) of the amount due, pursuant to §29-1-1102(3), C.R.S. The District may also apply interest to the outstanding fee, exclusive of assessed late fees, at the rate of eighteen (18%) per annum pursuant to §29-1-1102(7), C.R.S.

5. Decrease of Development Fee. Development Fees established hereunder are intended for use in connection with costs of District facilities and services. The Districts are parties to a Prepaid Development Fee Agreement, dated as of December 15, 2005, under which Crystal Valley Development Company LLC (“CVDC”) has purchased and hold Certificates for 108 prepaid development fees (the “Prepaid Fees”). Development fees required to be paid hereunder shall first be applied for redemption of the Prepaid Fees by CVDC until no further Prepaid Fees are outstanding. By signature below, the Districts further acknowledge and represent that after

application of the Development Fees for redemption of the Prepaid Fees, the next \$300,000 of Development Fees collected shall be placed in an escrow account for necessary funding associated with construction of the I-25 Interchange at Crystal Valley Parkway (the "Interchange Escrow"). If the District determines in its sole discretion that funding of the Interchange Escrow is not necessary or is necessary in an amount less than \$300,000, all Development Fees thereafter received shall constitute a pledged revenue source for payment subordinate indebtedness of the Districts. Any decrease in the Development Fees established hereunder shall not be permitted without the prior written consent of at least 75% of subordinate bondholders, including those individuals or entities that hold multi-fiscal year loans, promissory notes or other financial obligations of the Districts. The lien of such pledge shall be valid, binding, and enforceable as against all persons having claims of any kind in tort, contract, or otherwise against the District irrespective of whether such persons have notice of the lien.

6. Perpetual Lien. All fees contemplated herein shall, until paid, constitute a perpetual lien on and against the property served or to be served by any improvements provided by the Districts. All such liens shall be in a senior position as against all other liens of record affecting the property served or benefited, or to be served or benefited by improvements of the Districts and shall run with the Property and remain in effect as to any portion of such property as to which the appropriate fee has not been paid. All liens contemplated herein may be foreclosed in any manner authorized by law at such time as the Districts may determine that Fees hereunder have not been paid as required.

7. Prepayment Agreements. The Districts may enter into agreements for the prepayment of Development Fees in order to permit property owners to avoid scheduled increases in the Development Fee. The rate for such prepaid Development fees shall be the rate of the then-current Development Fee at the time of prepayment rather than the rate in effect at the time a building permit is obtained for the dwelling unit to which such prepaid Development Fee shall be allocated.

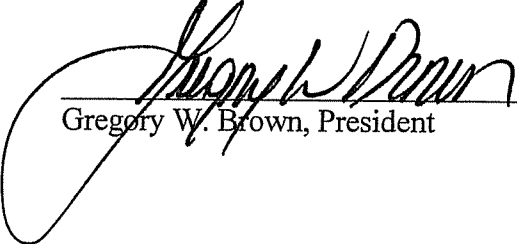

7. Amendment. The Districts may raise the amount of the Development Fee set hereunder when, in the Districts discretion, inflation or other budgetary factors so require.

8. Validity. Invalidation of any of the provisions of this Resolution or of any paragraph, sentence, clause, phrase, or word herein, or the application thereof in any given circumstance, shall not affect the validity of any other provision of this Resolution.
