Services Provided

The District, a quasi-municipal corporation and a political subdivision of the State of Colorado, was organized by order and decree of the District Court for the City of Aurora on March 4, 2002 and is governed pursuant to provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). On February 10, 2017, the District formally changed its name from RockingHorse Metropolitan District No. 2 to Inspiration Metropolitan District. The District's service area is located in the City of Aurora (the "City") in Douglas County (the "County"). The District was established to provide financing for the design, acquisition, installation, construction and completion of public improvements and services, including water, sanitation, street, safety protection, park and recreation, transportation, television relay and translation and mosquito control improvements and services.

The District has no employees and all administrative functions are contracted.

The District prepares its budget on the modified accrual basis of accounting in accordance with the requirements of Colorado Revised Statutes C.R.S. 29-1-105 using its best estimates as of the date of the budget hearing. These estimates are based on expected conditions and its expected course of actions. The assumptions disclosed herein are those that the District believes are significant to the budget. There will usually be differences between the budget and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.

Revenues

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or, if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

The calculation of the taxes levied is displayed on the Property Tax Summary page of the budget using the adopted mill levy imposed by the District.

Property Taxes – Regional ARI

Pursuant to the District's Service Plan, the District is required to impose the Aurora Regional Improvement (ARI) Mill Levy upon the District's residents. This mill levy is 1.000 mill for 20 years, which for this purpose begins the first year that the District certifies a debt service mill levy. The levy increases to 5.000 mills for years 21 through 40 or the date of repayment of the debt incurred for public improvements, other than regional improvements, whichever occurs first. For the 10 years subsequent to the period where the 5.000 mills is imposed, the ARI mill levy is the average of the debt service mill levy for the previous 10 years. The mill levies may be adjusted for changes in the method of calculating assessment valuation.

Revenues (Continued)

Property Taxes – Regional ARI (Continued)

The District entered into the South Aurora Regional Improvement Authority (SARIA) Establishment Agreement (SARIA Agreement) with the City. SARIA was formed to provide functions and services necessary to acquire, construct, finance, maintain, and manage certain regional improvements that are identified and agreed upon by the City and the member districts.

In order to fund these projects, SARIA may issue revenue bonds secured by the pledged revenues of the ARI Mill Levies by each of the districts. The District remits the property taxes generated from the District imposed ARI mill levy, net of the cost of collections, to SARIA.

Specific Ownership Taxes

Specific ownership taxes are set by the State and collected by the County Treasurer, primarily on vehicle licensing within the County as a whole. The specific ownership taxes are allocated by the County Treasurer to all taxing entities within the County. The budget assumes that the District's share will be equal to approximately 8% of all the property taxes collected.

Interest Income

Interest earned on the District's available funds has been estimated based on an average interest rate of approximately 0.8%.

System Development Fees

On October 20, 2015, the District established a one-time system development fee of \$3,500 per residential unit for the overall cost of providing amenities and facilities benefitting property and inhabitants within the District. The system development fee is calculated to defray the cost of funding Development Costs and reasonably distributes the burden in a manner based on the benefits received by persons paying and using the Facilities. The fees are payable by homebuilders at the time of issuance of a building permit.

Assessment Fees

The District adopted a Resolution Concerning the Imposition of an Operations Fee on October 20, 2015, which has been subsequently updated. The Board does not expect to raise the current Operations Fees for 2021. The Fee for each residential unit and each vacant lot is \$294 per quarter and \$147 per quarter, respectively. The District also imposes a Transfer Fee on each residential unit transfer and each vacant lot transfer of \$500.

Expenditures

Administrative and Operating Expenditures

Administrative and operating expenditures have been provided based on estimates of the District's Board of Directors and consultants and include the services necessary to maintain the District's administrative viability and operations and maintenance of the District owned public facilities such as legal, accounting, insurance, utilities, landscaping, facilities management, snow plowing, and other expenses.

County Treasurer's Fees

County Treasurer's fees have been computed at 1.5% of property tax collections.

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Directors Inspiration Metropolitan District Douglas County, Colorado

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Inspiration Metropolitan District (the District) as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Inspiration Metropolitan District, as of December 31, 2020, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Inspiration Metropolitan District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Inspiration Metropolitan District's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
 Inspiration Metropolitan District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting
 estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Inspiration Metropolitan District's ability to continue as a going concern for a reasonable period of time.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Inspiration Metropolitan District's basic financial statements. The supplementary information section is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information section, as listed in the table of contents, not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. In the statement of activities, capital outlay is not reported as an expenditure. However, the statement of activities will report as depreciation expense the allocation of the cost of any depreciable asset over the estimated useful life of the asset.

NOTE 1 DEFINITION OF REPORTING ENTITY

Inspiration Metropolitan District (the District), a quasi-municipal corporation and a political subdivision of the State of Colorado, was organized by Order and Decree of the District Court for Douglas County entered on May 30, 2002 and recorded on June 7, 2002 and is governed pursuant to provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). On February 10, 2017, the District formally changed its name from RockingHorse Metropolitan District No. 2 to Inspiration Metropolitan District. The District's service area is located in the City of Aurora, Douglas County. The District was established to provide financing for the design, acquisition, installation, construction and completion of public improvements and services, including water, sanitation, street, traffic and safety controls, park and recreation, limited fire protection, transportation, limited television relay and translation, and mosquito control improvements and services.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District has no employees and all operations and administrative functions are contracted.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant accounting policies of the District are described as follows:

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and inter-governmental revenues.

The statement of net position reports all financial and capital resources of the District. The difference between the sum of assets and deferred outflows and the sum of liabilities and deferred inflows is reported as net position.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes and specific ownership taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. The District determined that Developer advances are not considered as revenue susceptible to accrual. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred, or the long-term obligation is due.

The District reports the following major governmental funds:

The General Fund accounts for certain financial resources of the general government, except those required to be accounted for in another fund.

The Special Revenue Fund is used to account for revenues earned and expenditures incurred in connection with the operation and maintenance of District owned public facilities.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term debt of the governmental funds.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition and construction of capital equipment and facilities.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures and other financing uses level and lapses at year-end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The total appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

The District has amended its annual budget for the year ended December 31, 2020.

Pooled Cash and Investments

The District follows the practice of pooling cash and investments of all funds, excluding the Special Revenue Fund, to maximize investment earnings. Except when required by trust or other agreements, cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Interfund Balances

The District reports interfund balances that are representative of lending/borrowing arrangements between funds in the fund financial statements as due to/from other funds. The interfund balances have been eliminated in the government-wide statements.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August, and generally, sale of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows of resources in the year they are levied and measurable. The unearned property tax revenues are recorded as revenue in the year they are available or collected.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Capital assets which are anticipated to be conveyed to other governmental entities are recorded as construction in progress and are not included in the calculation of net investment in capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Depreciation expense has been computed using the straight-line method over the estimated economic useful life of 30 years for the pool and clubhouse and 10 to 20 years for improvements other than buildings.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, deferred property tax revenue, is deferred and recognized as an inflow of resources in the period that the amount becomes available.

Operations Fees

On October 20, 2015, the District adopted a Resolution Concerning the Imposition of an Operations Fee which was amended on November 5, 2018, November 19, 2019, and November 10, 2020 (collectively, the Fee Resolution). The Resolution, beginning January 1, 2021, imposes: 1) an Operations Fee on each Residential Unit at a rate of \$294 per quarter; 2) an Operations Fee on each Vacant Lot at a rate of \$147 per quarter; 3) a Transfer Fee on each Residential Unit and Vacant Lot of \$500 per Transfer.

On July 16, 2010 and Amended and Restated by 2016 Resolution on July 26, 2016, the Board of Directors of the Districts adopted a Joint Resolution Concerning District Fees for the Use of District Recreational Facilities by Nonresidents and Nonproperty Owners. Persons not residing or owning property within the legal boundaries of the District, as may be amended from time to time (the Outside Users), shall be entitled to utilize the RockingHorse tennis courts (the Recreation Amenities) in accordance with, and to the extent set forth within the resolution and the rules and regulations of the Districts. The annual Outside User fee is \$1,400 per year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Development Fees

On October 20, 2015, the District established a one-time Development Fee of \$3,500 per residential unit for the overall cost of providing amenities and facilities benefitting property and inhabitants within the District. The Development Fee is calculated to defray the cost of funding Development Costs and reasonably distributes the burden in a manner based on the benefits received by persons paying the fees and using the Facilities. The fees are payable by homebuilders at the time of issuance of a building permit.

Equity

Net Position

For government-wide presentation purposes, when both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

Restricted Fund Balance – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.

Committed Fund Balance – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

Assigned Fund Balance – The portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

Unassigned Fund Balance – The residual portion of fund balance that does not meet any of the criteria described above.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Equity (Continued)

Fund Balance (Continued)

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District's practice to use the most restrictive classification first.

NOTE 3 CASH AND INVESTMENTS

Cash and investments as of December 31, 2020 are classified in the accompanying financial statements as follows:

Statement of Net Position:

Cash and Investments	\$ 622,338
Cash and Investments - Restricted	3,209,473
Total Cash and Investments	\$ 3,831,811

Cash and investments as of December 31, 2020 consist of the following:

Deposits with Financial Institutions	\$ 355,355
Investments	 3,476,456
Total Cash and Investments	\$ 3,831,811

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2020, the District's cash deposits had a bank balance of \$355,874 and a carrying balance of \$355,355.

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Investments

The District has not adopted a formal investment policy; however, the District follows state statutes regarding investments.

The District generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest, which include:

- Obligations of the United States, certain U.S. government agency securities and securities of the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Certain certificates of participation
- Certain securities lending agreements
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- * Local government investment pools

As of December 31, 2020, the District had the following investments:

<u>Investment</u>	Maturity	 Amount
Colorado Surplus Asset Fund Trust	Weighted Average	 _
(CSAFE)	Under 60 Days	\$ 2,464,573
Colorado Local Government Liquid Asset	Weighted Average	
Trust (COLOTRUST)	Under 60 Days	 1,011,883
		\$ 3,476,456

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

CSAFE

The District invested in the Colorado Surplus Asset Fund Trust (CSAFE) (the Trust), which is an investment vehicle established by state statute for local government entities to pool surplus assets. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust is similar to a money market fund, with each share valued at \$1.00. CSAFE may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain money market funds and highest rated commercial paper. A designated custodial bank serves as custodian for CSAFE's portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for CSAFE's investment portfolio and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by CSAFE. CSAFE is rated AAAm by Standard & Poor's. CSAFE records its investments at amortized cost and the District records its investments in CSAFE using the amortized cost method. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

COLOTRUST

The District invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and any security allowed under CRS 24-75-601. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST is rated AAAm by Standard & Poor's. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST using the net asset value method. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

NOTE 6 NET POSITION

The District has net position consisting of three components – net investment in capital assets, restricted, and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. As of December 31, 2020, the District had net investment in capital assets calculated as follows:

Net Investment in Capital Assets:

Net Investment in Capital Assets	\$ 2,603,032

Restricted net position includes assets that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The District had restricted net position as of December 31, 2020 as follows:

Emergency Reserves	\$ 64,300
Total	\$ 64,300

NOTE 6 NET POSITION (CONTINUED)

The District has a deficit in unrestricted net position. The deficit was a result of the District being responsible for the repayment of bonds issued for public improvements which were conveyed to other governmental entities and which costs were removed from the District's financial records.

NOTE 7 RELATED PARTY

The Developer of the property which constitutes the District is Nash Inspiration, LLC. Two members of the Board of Directors are employees, owners or are otherwise associated with the Developer, and may have conflicts of interest in dealing with the District.

NOTE 8 AGREEMENTS

Intergovernmental Agreement with the City of Aurora

On December 21, 2004, the District and District No. 1 (collectively, the Districts) entered into the Intergovernmental Agreement between the City of Aurora and the Districts (the IGA). The IGA defines and clarifies the services which the Districts may provide, as well as those services which the Districts are prohibited from providing. The IGA was amended and restated on May 21, 2018 to allow the District to own, operate, and maintain Public Improvements not otherwise required to be dedicated to the City or other public entity. Pursuant to the Consolidated Service Plan, the Districts are required to impose the Aurora Regional Improvement (ARI) Mill Levy upon the Districts' residents. This mill levy is 1.000 mill for 20 years, which for this purpose begins the first year that the Districts certify a debt service mill levy. The levy increases to 5.000 mills for years 21 through 40 or the date of repayment of the debt incurred for public improvements, other than regional improvements, whichever occurs first. For the 10 years subsequent to the period where the 5.000 mills is imposed, the ARI mill levy is the average of the debt service mill levy for the previous 10 years.

South Aurora Regional Improvement Authority

On February 7, 2018, the District entered into the South Aurora Regional Improvement Authority (SARIA) Establishment Agreement (SARIA Agreement) with the City. The Authority was formed to provide functions and services necessary to acquire, construct, finance, maintain, and manage certain regional improvements that are identified and agreed upon by the City and the member districts.

The SARIA Agreement provides that SARIA may adopt an ARI master plan, pursuant to the Code and Service Plans of the districts. SARIA will prioritize and support the completion of the regional improvements as identified in the ARI Master Plan. In order to fund these projects, SARIA may issue revenue bonds or other multi-fiscal year financial obligations, subject to its sole discretion, secured by the pledged revenues of the ARI Mill Levies by each of the districts and other funds legally available to SARIA.

NOTE 8 AGREEMENTS (CONTINUED)

South Aurora Regional Improvement Authority (Continued)

SARIA adopted ARI Master Plan Number One on December 8, 2017; however, no action has been taken to implement ARI Master Plan Number One. On June 15, 2018, the Authority adopted ARI Master Plan Number Two which replaces ARI Master Plan Number One and constitutes the Authority's current plan for Regional Improvements.

ARI Master Plan Number Two identifies \$62,200,000 of Regional Improvements Pursuant to ARI Master Plan Number Two, the Authority is responsible for providing financing for only a portion of these improvements. The remaining costs are planned to be paid by the City, the County, and/or certain Member Districts and developers, depending upon the particular improvement.

On October 2, 2018, the SARIA Agreement was amended by the First Amendment to the South Aurora Regional Improvement Authority Establishment Agreement (First Amendment) in conjunction with the issuance of SARIA's Special Revenue Bonds, Series 2018 (SARIA Bonds). SARIA issued its SARIA Bonds in the amount of \$11,265,000 on December 19, 2018. The District is obligated to pledge its ARI Mill Levy Revenues to the repayment of the SARIA Bonds pursuant to the terms of the SARIA Agreement and the First Amendment.

This agreement was subsequently extended for 2016 and 2017. Effective January 1, 2017, the Maximum Loan Amount was increased to \$200,000. Subsequent to December 31, 2020, the Developer forgave the outstanding advances totaling \$69,071, including principal and interest.

Infrastructure Acquisition and Reimbursement Agreement

The District and the Developer entered into an Infrastructure Acquisition and Reimbursement Agreement dated May 23, 2016 (the Acquisition and Reimbursement Agreement), whereby the Developer agreed to construct recreational amenities such as a pool and clubhouse (the Recreation Amenities) and the District agreed to Acquire the Recreation Amenities. The District agrees to reimburse the Developer for all District eligible costs approved under this Agreement with an interest rate of 7% per annum.

A balance of \$691,979 in principal and \$147,837 of accrued interest remains outstanding as of December 31, 2020.

NOTE 8 AGREEMENTS (CONTINUED)

Infrastructure Acquisition and Reimbursement Agreement (Continued)

The District and the Developer entered into an Infrastructure Acquisition and Reimbursement Agreement Agreement dated July 6, 2017 (the Acquisition and Reimbursement Agreement), whereby the Developer agreed to advance funds to the District for construction of Public Infrastructure (as defined therein) and/or construct Public Infrastructure for acquisition or payment by the District. The District agrees to: (i) reimburse the Developer for all District eligible costs for which the District receives advances; (ii) acquire any Public Infrastructure constructed for the benefit of the District from the Developer that is not being dedicated to other governmental entities and to pay all reasonable costs related thereto; and (iii) to reimburse the Developer for any costs incurred by the Developer for Public Infrastructure that is being dedicated to third parties, subject to the requirements of the agreement.

Under the Acquisition and Reimbursement Agreement, the District agrees to reimburse all District eligible costs of the Developer in financing, constructing or installing such Public Infrastructure together with interest thereon at the rate of 8% per annum, accruing from the date the Developer deposits immediately available funds, has paid or advanced funds not otherwise directly attributed to a particular Public Infrastructure improvement or component part of, or the District has received a Cost Certification.

NOTE 9 INTERFUND AND OPERATING TRANSFERS

Transfers from the General Fund and the Special Revenue Fund to the Capital Projects Fund was and will be used to fund major capital projects.

NOTE 10 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for property liability, public officials' liability, and workers compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 11 TAX, SPENDING AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations that apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

On November 2, 2004, a majority of the District's electors authorized the District to collect and spend or retain in a reserve all currently levied taxes and fees of the District without regard to any limitations under TABOR.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.
